

Balimo Clinic

Sunday, March 27th

Balimo is a German originated approach to getting the human body more balanced and coordinated, so that we can be a better partner with our horse and help him work on his own balance and coordination. Hollie is a graduate of the Balimo program and has worked closely with Balimo's founder, German Sports Physiologist Eckart Meyners on numerous occasions both in the US and in Germany.

The day begins with a Balimo lecture and exercise program open to all. This is open to any rider of any level and it's open to both riders and auditors. Riding sessions will all be semi-private lessons.

Clinic Fees:

Riding Fee: \$60

School Horse Fee: \$10 (should you need one)

Auditor Fee:\$15

Those interested in riding should include a \$30 deposit when signing up.
